

APPLICATION FOR A QUARRY PERMIT

The information you are providing will only be used for the purpose for which it has been provided.

Instructions:

- Please type or print clearly
- Mail completed form with rental fee and a site location map
- Use additional sheets if necessary

GENERAL INFORMATION

All applications for regular quarry permits are referred to the appropriate government departments and municipal authorities, etc., for comment before a final decision is made regarding whether to issue a permit. This process normally takes two weeks.

In many cases, depending upon the location of a proposed quarry development, municipalities and departments other than the Department of Natural Resources have legislative control over certain aspects of the development. We endeavour to get approval from all other departments prior to issuing a permit. However, development permits from municipalities or certificates of approval or authorizations from other government departments may be necessary before quarrying or development of the quarry can start. The issuance of a permit from this department does not relieve the applicant of the obligation to obtain any other permits that may be required by law respecting a quarry development.

Quarry Permits are valid for a period not exceeding one year, and always expire on December 31 of the year issued. Normally quarry permits are issued for an area not exceeding 5 hectares. A rental fee of \$80.00/hectare must accompany the application. A royalty of 50 cents/cubic metre is payable within 60 days of the December 31 expiry date of this permit.

Completed Application Forms are to be mailed to:
